Members of St. Mary's Parish:

During the next several months our parish will initiate a comprehensive Feasibility Study to assess the parish opinion and support for a potential capital campaign to grow our parish facilities to better accommodate our ever-increasing needs and parish life. This feasibility study will not be asking anyone for a financial commitment as the goal is to gain your input prior to making a determination on the moving forward to a potential future project.

We plan to schedule more than a dozen Informational Meetings throughout the late summer and early fall. Every parish family will be invited to attend one of these meetings so that we may explain what we are considering for the future of St. Mary's and hear your reaction and concerns.

I will update you as we move closer to the start of this study.

Prayerfully yours,

Father Joseph Phung
